Departure of Steamers.

FOR COLLINGWOOD AND THE EAST.

The Collingwood Line of Screw Steamers have one every day, from Dousman's dock, foot of East Water st., connecting at Collingwood with cars from the East.

FOR BUFFALO.

Screw steamers, with good accommodations for passengers, leave the different transportation docks every day for Buffalo.

FOR PORT WASHINGTON, &C.

The Steamer Gazelle leaves Johnson & Olmsted's Dock at 5 o'clock in the morning, for Port Washington, Sheboygan, Manitowoc and Two Rivers.

FOR CHICAGO, &C.

The steamer Traveller leaves Johnson & Olmsted's Dock every evening, at 9 o'clock, for Chicago and intermediate ports.

The News in Brief.

The principal features of our telegraphic news, this morning are: the firing into the American Bark *Armenia*, while passing the Straits of Gibralter, from a Spanish fort; the destruction of the theatre at St. Paul by fire, and narrow escape of a large number of citizens who were attending a political meeting there; another at Concord, destroying a large block of stores and several dwellings; the construction of an aerial ship in the vicinity of New York, designed for a trans-Atlantic voyage; and the assurance from Washington that the dispute with England, in regard to the title of San Juan, will be amicably settled in favor of the United States.

The Grain Trade.

Last week was quite an active one in the produce market. Receipts of grain, including flour, amounted to 239,549 bushels, as follows: 4,686 bbls flour, 209,911 bus wheat, 1,458 bus. oats, 984 do. corn, 2,028 do. barley, 1,743 do. rye. Shipments for the week were, in the aggregate, 197,261 bushels, as follows: 5,699 bbls. flour, 162,696 bus. wheat, 6,220 bus. oats. Receipts of wheat *exceed* those for the corresponding week in 1858 by 58,000 bushels. Receipts of wheat, alone, on Saturday, were upwards of 30,000 bushels. The week closed with a firm market, prices tending upwards.

Good Authority for the Charge.

The *News* of Saturday takes the La Crosse *Republican* to task for stating that Senator DOUGLAS, in his copy-righted essay for Harper's Monthly, "was on the Republican tack, endeavoring to cater the northern sentiment." The *Republican*, if it sees fit, can cite a hundred democratic authorities for this statement. Let us mention three, or four notable ones. The Richmond *Enquirer*, the leading organ of the Virginia Democracy; the Louisville *Courier*, principal organ of the Kentucky Democracy; the *South Carolinian*, which claims to speak for the Palmetto State; Senator DAVIS, the mouth-piece of the Mississippi Democracy; Senator IVERSON, who represents one-half of Georgia; the *Constitution*, the central organ of the National Democracy; and the great BUCHANAN himself, the head and front, exponent and oracle of the party—all these concur in the opinion that the views of Senator DOUGLAS are unsound, heretical, anti-democratic, revolutionary and, worst of all, REPUBLICAN! How can the mole-hill of the *News* off set this mountain of Democratic testimony?

Supporting the Administration—A Word from One of the Faithful.

EDITOR SENTINEL:—A new paper has recently appeared in Milwaukee, called the *National*, which professes to support the Administration. In the "introductory" of the 10th, the following promise is made:

> The administration of James Buchanan will consequently receive our hearty and uncompromising support, for the remainder of his term.

Yet on the same page the following allusion is made to the resolution which, damning the Chief Magistrate with faint praise, was passed at the late "Democratic" State Convention:

> The resolution also which sets forth so plainly what has been accomplished by the National Administration meets our warm approval. In this has the Convention been just. For no party can have sunk so low, or have acted so basely, as to decry and denounce, the chief of its choice!

Now, the resolution in question, and in fact the only one relating to the Administration, endorses, specifically, only a few of the acts of the Executive, and those not of an important character, or such as are relied on by the true friends of our venerable President. No mention is made by the *National* of the rejection, by that convention, of the resolution introduced by Mr. BUGH, which frankly and unequivocally expressed an adhesion to the Democratic measures of the Administration. No notice is taken of the contemptuous treatment which that endorsement met at the hands of the Convention, of the hisses which greeted it, or of its being voted down almost unanimously.

I ask if a paper can be called consistent, or can be commended to true Democrats, which so soon departs from its promised line of conduct, as to countenance such a course toward the Administration and the important measures favored by our glorious old chieftain at Washington? Yours,

AN ADMINISTRATION DEMOCRAT.

DOUGLAS IN MISSISSIPPI.—The Oxford *Mercury*, of Mississippi, has an article on the Harper's Magazine manifesto of Senator DOUGLAS. The *Mercury* carries at its head the Democratic flag of Mississippi, and may be entitled a Democratic print. It says that for two months it has been known that Senator DOUGLAS was preparing a manifesto on "the dividing line between Federal and Local Authority." The reason why the Senator prepared a paper for Harper's Magazine is thus given: "The Southern press having long since ceased to publish the speeches and letters of the Illinois Senator, because he's sale are no longer in consonance with theirs, he avails himself of the universal circulation of the above professedly neutral magazine in the South, to disseminate his views upon the government of our Territories." The *Citizen* seems to be puzzled by the language of the Senator, but jumps to the conclusion following: "The South may rest assured—and does feel assured—of one thing in regard to Mr. DOUGLAS—*he is a Freesoiler at heart.*"

It is quite clear that Democracy South regards Senator DOUGLAS as little, if any less objectionable than Senator SEWARD. In the estimation of the Southern Democratic Press and People they are both "Free-soilers at heart."

DEATH OF THE OLDEST PRINTER.—Col. Samuel Green died in Hartford on the 6th, aged 92. His father, when Samuel was born, published the New London *Gazette*, and he became a partner in the business in 1790.—He continued to publish the paper until 1838, since which time he has lived with his son, where he died.

BLONDIN AGAIN TRIUMPHANT.

Crosses with Willow Baskets on his Feet and Shackled—Returns with a Table and Chair and Indulges in a Champagne Supper.

Blondin yesterday succeeded in accomplishing another of his daring feats. This one we think may be ranked next to that of carrying a man across on his back.

At 4 P. M., Blondin made his appearance, accompanied by a Spertzel, one of his right hand men. Finding that his guys were too slack, considerable time was consumed in getting things in proper order. However, at 5 o'clock all things being ready, Blondin stepped upon the rope, and after encumbering his feet with willow baskets, sixteen inches in diameter and eleven deep, as well as shackling himself as he did upon former occasions, immediately started upon his journey. When about one third of the way across, he went through his performance of standing upon his foot and then upon his head, &c., and started at a rapid rate, and reached the Canadian shore in thirteen minutes. Walking with baskets upon his feet must have been quite trying to his nerves, as they were liable to slip at every step. The vibration when at the centre is tremendous, the rope swaying some three or four feet, as we are informed.

After fastening his guys upon the Canadian side, calling upon his friends in the crowd, &c., he again, at ten minutes of six, made himself conspicuous by appearing upon his rope with a light stand on his left side, upon which was placed a bottle of champaigne, some cake and candy. Upon his right he had a chair attached. Blondin's intention was to sit upon his chair and partake of his good cheer, but, unfortunately, and very greatly to his disappointment, when he was in the act of so doing, his chair caught upon the calf of the leg and tumbled into the river. He made good use of his table. He was fifteen minutes in crossing this time.

At the conclusion of the performance, J. Spertzell, of this city, announced that this was the last ascension Blondin would make this season, but would set the ball in motion again by crossing, on the first day of next June, mounted upon stilts.

Some despicable rascal Thursday night attempted to cut the main cable—and succeeded in severing each strand, but not enough to do any injury.

In the evening, Blondin and his wife gave an entertainment at the Clifton House, which was well attended. Madame B. was very graceful in her performance upon the rope and Monsieur quite funny.

About 6,000 persons witnessed the performances on the rope—a less number than have been present at the previous entertainments.—*Buffalo Courier, Sept. 9.*

The Great Eastern.

The Portland people are making great preparations to receive the Great Eastern. The *Advertiser* of that city says:

"The wharves built by the city and the Grand Trunk for her accommodation are located near Fish Point, the western terminus of the peninsula upon which Portland is situated, and they were so located, that being the nearest point to the deep water of our outer harbor, where there is from six to eight fathoms at low water, and nine feet more at high water. At the suggestion of the City Government, the Grand Trunk have agreed to build a substantial bridge twenty feet wide, upon the bank on Munjoy Hill, opposite their lower wharf, to the wharf, by which visitors can pass to the steamer, twenty feet above the track of the railroad. Access to this bridge will be from the Eastern Promenade, the city proposing to make two streets from the promenade to the bridge, so that carriages can pass down one of those streets to the entrance of the bridge and up the other. The ample width of the promenade and the vacant land adjoining will afford good accommodation for 8,000 to 10,000 spectators, who can here look down upon the steamer' decks at high water, embracing at the same time a panoramic view of our harbor and a part of the 300 isles of Casco Bay. An admission fee to the steamer will be charged by her owners, and the bridge will be so constructed as to allow one flight of stairs from it to be used by those entering her, and another by those leaving."

The Great Eastern is to sail for Portland on the 15th inst. It is very probable that she will make a trip from Portland to New York, if proper measures were taken to convince her owners that they could do so with safety and profit. She probably could not come by way of Sandy Hook, but she might reach here through Long Island Sound to Morris Island, in Westchester County, without the slightest difficulty. Morris Island is connected with the City of New York down to the City Hall, by the Harlem Railway—distance about ten miles, which can be accomplished in twenty minutes. From Montauk Point, on the eastern end of Long Island, or from Block Island channel, there is not, at any one point, less than six fathoms—or thirty-six feet—of water. At Morris's dock, there is at low tide seventy feet. An ample harbor is then found by the Brothers' Islands and Hussar Point. Should her owners bring her to this port, they might safely calculate in netting a hundred thousand dollars in the course of a few weeks, by throwing her open to visitors at 25 cents each.

Washington Intelligence.

Special Dispatch to the N. Y. Herald.

WASHINGTON, Sept. 7, '59.

Messrs. Barr, of New York, and Gurley, of Ohio, members of the next Congress, are in this city. The latter, and Mr. Blair, of Missouri, are engaged in refranking the rejected Republican documents for Minnesota.

The navy contracts for beef and pork have been awarded to parties in your city, at about $11,50 for the former and $15,50 for the latter. The price for beef is considered less than it can be packed for, while the pork leaves no margin. J. Porter Brawley is interested in the pork trade.

The Western office-holders against whom charges are pending are importuning the President to intervene in their behalf, but he tells them they must show clean records or leave. He is determined the government shall be administered on correct business principles. Political services will not cover official sins.

Some Western Senators complain of partiality in the Administration of the Post Office Department by Mr. Holt, who is connected by marriage with Senator Yulee, chairman of the Senate Committee on postal affairs.—They assert that while Western routes are discontinued, to the dissatisfaction of the people, and detrimental to their interests, Florida, with its handful of inhabitants, gets everything asked for. It is thought this will lead to the supersedure of Mr. Yulee as chairman.

Sam. Smith, of Tennessee, is spoken of as the successor to Mr. Hendricks, as Commissioner of the General Land Office.

Gen. G. P. Smith, of Tenessee, special agent of the Post Office Department for the South and Southwest, has resigned.

Senator Trumbull, of Illinois, is in town.

Buchanan to Answer Douglas.

Special Correspondence of the N. Y. Tribune.

WASHINGTON, Sept. 7th, 1859.

Mr. Buchanan is preparing an elaborate reply to the recent manifesto of Mr. Douglas on Squatter Sovereignty, and has sent to New York for Mr. James Gordon Bennett to aid him in putting the matter in the best form for the public eye. It is on this business that Mr. Bennett has been closeted with the President daily for the last week. Mr. Brown, the clever and gentlemanly editor of the *Constitution*, has also been detained here on the same business, though he had made arrangements for a brief visit to the North.

Most probably, Mr. Buchanan will act on the advice of Mr. Bennett, and will not copyright his disquisition.

SHOOTING AFFAIR.—On Monday last Mr. A. J. Merritt was examined before Justices Barber and Hogue, charged with shooting Mr. W. R. Liscberness the day before. The affair took place in Springfield, and arose from a dispute regarding the division of certain crops between the plaintiff and the defendant who was a tenant of plaintiff's. The parties had had some words, when Merritt went into the fields to work; Liscberness followed after a little, and when within a short distance of Merritt he was ordered to stop and not come nearer; he kept on advancing, when the defendant drew a pistol and fired, the ball striking Liscberness on the side, just above the hip, glanced, and after going thro' two pairs of pants and three shirts, was finally stopped by the clothing and dropped into his boot. Had the ball varied a little to the left it would have entered his body, and probably proved fatal. The intent to shoot was clearly shown. The defendant was bound over for trial in the sum of $800 which bail he procured.—*Jackson Co. Banner, 8th.*

Western Boundary of Minnesota.

WASHINGTON, Sept. 10—3 P. M.

Advices received by the General Land Office announce the completion on the 4th ult. of the survey of the Western boundary of Minnesota, and the placing of the corner stone at the intersection of the Northern and Western boundary of that State.

THE CITY.

An Affair of the Hart.

The most amusing man we know of, is Col. WELLINGTON HART. He commands the light artillery of the great SHAM and rolls his cannon balls through the pickets of the opposing army with an entirely original plan, which if not as destructive as the common mode is at least a deal more interesting. All the latest improvements in field practice, the Col. has adopted in his literature. The rifled sentences sending their truths with deadly aim, the very Armstrong paragraphs that there is no withstanding—all are due to the Col. Before reaching the Parnassus of Democratic fame—Harper's Magazine—he prances his war charger in curvilinear grace before the select readers of the *News*. As his gyrations in this small circle are not copyrighted, we steal a few of the more delightful and refreshing antics to add a little spice to our otherwise common-place columns:

Now the Shanghais have been cackling long enough; if they take advantage of us and lay *their Heggs in the State Prison* there is no knowing what they will not do by November. Gymnastic acrobats *cum multis aliis lujus generis*, are already impressed for this campaign, and *lying* is resorted to at the incipiency to prejudice men as well as principles.

There is a sententious wisdom about this that would have delighted BACON, albeit the Latin is bad and the English like unto it.—There is no denying that "Gymnastic acrobats" are already impressed for this campaign. We think that even the Republicans must admit there are men "impressed" whose high and lofty tumbling, commencing in the Council room of Know Nothingism has been brought down with improved powers to the know nothing-ism of Democratic literature.

We fully agree with the Col. there. The following apothegm, "shied" at RANDALL, must tell somewheres:

Again look at the political register. He votes for a horse! Being himself a cross bred, he proves himself a perfect form of the ass and fancies, by his dogged despotism, to force the Shanghais to recognize their Meshach—Shadrach—or Abednego.

If the Col. supposes that "cross bred" is a "perfect form" of ass, we shall not object, even though he insists on "dogged despotism" to boot. The most perfect form of an ass we know of is "*cross* bred" beyond a question.

Col. WELLINGTON HART reminds us of the standard verse:

> "There was a man in our town
> And he was wondrous wise,
> He jumped into a bramble bush
> And scratched out both his eyes."

The intelligent reader may apply the figurative bramble either to the Democracy or to the *News*, though if the former, we doubt very much whether he will seek to "scratch them in again" by another jump, proficient though he be in sommersaults. We very much fear the Col., in his literary spasms, is making himself liable to the charge of an "illicit connection with Fame."

Regatta during the State Fair.

We are authorized to announce that there will be a regatta during the State Fair in this city, in which prizes will be offered by the Agricultural Society, for six-oared boats, four-oared boats, two pair scull boats and single pair scull boats. The prizes for the first two classes named will be suitable pieces of plate, and the contest will be open to all *amateur* boat clubs in Wisconsin, Illinois and Michigan; boats to be pulled only by active members belonging to the respective clubs August 24th ult. The prizes for the last two classes will be money, and the contest will be open to all boats. The more definite arrangements, giving the day and hour of the regatta, the amount of entrance fees, &c., will be published soon.

Arrival of the Great Eastern—Grand Excursion!

DETROIT & MILWAUKEE RAILWAY,
General Western Agency,
MILWAUKEE, Sept. 9, 1859.

The mammoth steamship *Great Eastern* is expected to arrive at Portland the last of this month. Due notice of the exact time will be given as soon as known. The "Detroit and Milwaukee Railway Company" will be prepared to issue very cheap Atlantic Excursion tickets, to Portland and return.

H. O. WILSON, Gen'l West'n Agent.

MUSICAL SOCIETY.—The Milwaukee Musical Society, had a meeting Friday evening, but very little business of importance was transacted. The matter of performing operas during the coming winter, seems to meet with a degree of opposition, on the ground that former operas did not pay. We hope, now that Albany Hall is completed, that the society will "bring out" an exhibition that will be a credit to them; and we also hope that the American portion of the community will patronize them. The Musical Society contains talent, and their concerts are accompanied with an orchestra that no itinerant company can compare with.

ANOTHER LODGE OF GOOD TEMPLARS.—Friday evening a new lodge of Good Templars was formed in this city, under the title of "the Dashaway." The following is the list of officers:

H. W. GUNNISON, W. C. T.
Mrs. AGNES ST. JOHN, W. V. T.
C. C. COLE, W. S.
H. FIELD, W. T.
A. H. ATKINS, W. F. S.
M. HENDRICKS, W. M.
W. K. SCHENCK, W. J. G.
A. T. WILLIS, W. O. G.

THE "MILWAUKEE NATIONAL" made its appearance on Saturday. It is a small sheet, well filled with matter, relating mostly to itself, with FLAVIN BROTHERS on its flag, but no indication of the man at the wheel.

As was stated in the prospectus, it is an administration *organ*, but we are left in the dark as to who turns the handle. Its next issue will be on to-morrow (Tuesday.)

J. E. STEVENS.—We clip from the St. Joseph, Michigan, *Traveller*, the following notice of Mr. STEVENS:

FRUIT ITEM.—Our fellow-townsman, J. E. Stevens, Esq., has shipped to Milwaukee, since the fruit season commenced, 2,000 baskets of Peaches, 200 baskets of Pears, 1,200 bushels of Apples, and 50 baskets of Plums.

Mr. STEVENS' Agent may be found on the corner of River and Biddle streets.

MILWAUKEE SABBATH SCHOOL ASSOCIATION.—The regular monthly meeting of the Milwaukee Sabbath School Association will be held this (Monday) evening at 7 1-2 o'clock, in the Lecture Room of the Spring St. Congregational Church. C. K. MARTIN, Esq., will deliver the address. The question for discussion is: "What is the best method of conducting Sabbath Schools."

SCOTT'S NOVELS.—The two latest numbers of PETERSON'S cheap edition of SCOTT'S Novels, have reached us. "The Fortunes of Figel" and the "Heart of Mid Lothian."—Any one wishing to secure a fine set of SCOTT'S works should send to PETERSON & BROTHERS 306 Chestnut street, Philadelphia.

A CURIOSITY.—The unusual phenomenon of mud was distinctly observable in our streets, Saturday morning. It excited general remark and we observed sundry men and teams engaged in collecting and carrying off the precious article.

Milch Cows and Dairy Farming.

Comprising the Breeds, Breeding and management in health and disease of Dairy and other stock; the selection of Milch Cows; with a full exposition of the author's method of the culture of forage plants and the production of butter and cheese, embodying the most recent improvements adopted in the United States and British Provinces; By CHARLES L. FLINT. Illustrated; pp 446. Boston: Phillips, Sampson & Company.

In the preface of this work, the author says, it is designed to embody the most recent information on the subject of Dairy Farming. His aim, he states, "has been to make a practically useful book." A better aim he could not have had. "Practically useful" books are scarce. His efforts to make this work valuable in this sense, have been signally successful. It does not advance theories, nor advocate the ideas of the author. It affords *facts*, gleaned from a very wide field of practical life, and states the result of investigation and research.

Mr. FLINT is qualified to write a practical book, but to his qualifications he had added the ultimatum of the best authorities; he had depended more on the experiments of dairymen, than his own knowledge, and stated that only which was corroborated by diligent enquiry. The style is clear and nervous. The illustrations numerous and of a superior order, and the appearance of the book is at once ornamental as its contents are useful.

We have not space to make as many extracts from the work as we would like. The author's remarks on "Breeding, Rearing," &c., are well worth repeating. In his chapter on the "Nutritive qualities of food," we find the following sensible observations:

> The variations in the yield of milch cows are caused more by the *variations* in the nutritive elements of their food, than by change of the form in which it is given. "A cow, kept through the winter on mere straw," says a practical writer on this subject, "will come to give milk; and when fed in spring on green forage, will give a fair quantity of milk." But she owes the cessation and restoration of the secretion to respectively the diminution and the increase of her nourishment and not at all to the change of form, or of outward substance, in which the nourishment is administered. Let cows receive through winter nearly as large a proportion of nutritive matter as is contained in the clover, lucerne and fresh grases which they eat in summer, and, no matter in what precise substance or mixture that matter may be contained, they will yield a winter's produce of milk quite as rich in *caseine* and *butyr aceine* ingredients as the summer's produce, and far more ample in quantity than almost any dairy-man with old-fashioned notions would imagine to be possible.
>
> * * * * *
>
> I have found in my own practice, and in the practice of the most successful dairymen, that in order to encourage the largest secretions of milk in stalled cows, one of the best courses is, to feed in the morning either at the time of milking—which I prefer—or immediately after, with cut feed, consisting of hay, oats, millet, or corn stalks, mixed with shorts and Indian, linseed, or cotton seed meal, thoroughly moistened with water. If in winter, hot or warm water is far better than cold. If given at milking time, the cows will generally give down the milk more readily.
>
> * * * * *
>
> No very concentrated food, like grains alone or oil cakes, should, it seems to me, be fed early in the morning on an empty stomach, though it is sanctioned by the practice in the London Dairies. The processes of digestion go on best when the stomach is sufficiently distended; and for this purpose the bulk of food is almost as important as the nutritive qualities. The flavor of some roots, as cabbages and turnips, is more apt to be imparted to the flesh and milk when fed on an empty stomach, than otherwise.

"*Milch Cows and Dairy Farming*," should be in the hands of every man interested, either as a stock-breeder or a Dairyman, in the order of *Ruminata*.

COLORED REFUGEES.—Canada contains forty thousand escaped slaves, and manifold thousands are destined to find refuge there in the future. These refugees have a special claim on the benevolence of the Christian and the philanthropist. They need for themselves and their children, the moulding hand of civilization, education and Christianization. But these blessings cannot be secured without foreign aid. They have consumed their days in unrequited toil. They now find themselves cast upon their own resources, destitute of everything but ignorance and poverty.

A Society, headed by some of the leading men of Detroit, has been formed for the moral, physical and intellectual elevation of the fugitives. Rev. Mr. FOOTE, the general agent of this society, is now in this city, soliciting aid in their behalf, and brings ample testimonials and commendations from ministers and laymen of various denominations, among whom are: Bishop POTTER, and Rev. Dr. BARNES, of Philadelphia; Senator CHANDLER, and Rev. Dr. DUFFIELD, of Detroit.—The enterprise is an eminently benevolent one, being disconnected from all denominational and partizan considerations. It commends itself to the Christian and philanthropist.

WM. DELOSE LOVE, JAMES PYPER,
C. D. HELMER, EDWARD COOKE,
S. C. WEST, A. W. GRAY,
J. M. WALKEE.

THE MILWAUKEE AND GRAND HAVEN ROUTE.—We were in Milwaukee last week when the two steamers for this route—the *Detroit* and the *Milwaukee*—arrived. They are splendid examples of sea-going steamers, large, strong, comfortable, safe. They look as if able to ride out comfortably, any gale on Lake Michigan. The route, with these steamers upon it, leaving each terminus twice a day, is a short, safe and pleasant one, and will be supported by all the Northwest for these reasons, and because it is particularly a home institution—forming one more cut off from that Algiers of Lake Michigan, Chicago, to which we have all been paying tribute so long.

We never saw a finer sight than the two boats making their debut together into Milwaukee waters. Salutes were firing from North Point and from other places along the shore; flags were suspended over the docks and across the streets, bands were playing, thousands of people turned out to see them come in, and when the two vessels rounded in between the piers, decked with flags, and firing salutes, it did seem a triumphal entry. We thought of the Argonautic expedition after the Golden Fleece. The golden corn and wheat from the fields of Iowa, Minnesota and Central Wisconsin, which they will carry away, will indeed be a richer fleece than Jason found.

Somebody, who advertises Webster's Dictionary, heads the notice with "Get the Best." It is good advice, and Milwaukee has followed it. She has got the best harbor on that Lake shore; she has got the best hotel in the Western country, the Newhall House; and now she has got the best steamer line West of the ocean.—*Green Bay Advocate.*

BOARDING AND DAY SCHOOL FOR YOUNG LADIES.—This morning Madame SEIBERT re-opens her English and French boarding and day school for young ladies, at No. 497 Jefferson street. At the same time she will commence a special class for young ladies, wishing to study the French language. Madame SEIBERT is an admirable teacher, and has met with great success in our city, so far as the proficiency of her pupils is concerned, tho' not with the patronage the excellence of her school deserves. Mr. SEIBERT, who is a scholar and an artist, gives instruction in German, Music, and Drawing.

POST OFFICE CHANGE.—On and after Monday the 12th, the mail for Waukesha, Whitewater, Janesville, Beloit and Madison, Wis., and Freeport, Ill., will close daily, except Sundays, at 3 1-2 P. M.

Beloit and Freeport, and all points on Racine and Mississippi R. R., and Illinois Central R. R., between Freeport and Dubuque, also close at 8 A. M., and go through the same day. M. STEEVER, P. M.

P. O., Sept. 15, 1859.

State Fair—Firemen's Tournament.

Open to all Fire Companies in the State except those belonging to the city of Milwaukee—to be held at Milwaukee, on Wednesday, Sept. 28, 1859.

The Executive Committee of the State Agricultural Society have appropriated $100, which, together with the money obtained from the companies entering for competition, will be applied as follows:

First class Engines, on quantity—Prize, a Silver Trumpet, $75.

Second Class, on quantity—Prize, a Silver Trumpet, $75.

The money unexpended as above, will be given as a Prize to the engine throwing the greatest distance, horizontally.

CLASSIFICATION OF ENGINES.

Rule 1. All machines having cylinders of more than 9 inches in diameter, rate as First Class.

Rule 2. All machines having cylinders of 9 inches or under, will rate as Second Class.

Rule 3. In playing on distance, all engines will be required to draft their own water from suction, playing through 100 feet of leading hose, furnishing their own hose, and through such nozzle as the Company may select.

Rule 4. In playing on quantity, all engines will be required to play through 300 feet of hose, drafting their own water from suction into a tank; time to play, 3 minutes. On quantity, all engines will be required to play through the same lead of hose.

Rule 5. Each company will be permitted to enter 70 men, all told, and no more.

Rule 6. Each company will be allowed 20 minutes after being called to get their engine ready and make their play.

Rule 7. In case of hose bursting, 10 minutes will be allowed to replace it. No more than two trials will be allowed to any company by bursting hose.

Rule 8. Judges to be chosen, one by the Foreman of each company entering.

Rule 9. The Foreman of each company entering will draw lots for turn to play.

Rule 11. The Committee of Arrangements will provide stakes and rope, and enclose the company playing. None will be admited except the Judges.

All companies desirous of entering for competitoni, will notify the committee by letter or otherwise. Direct to J. S. FILLMORE, box 1,066, Milwaukee P. O.

All companies entering will be required to pay $10 entrance, on or before 9 o'clock, A. M., on the 28th of Sept. The money to be paid to any of the committee.

The companies will meet on Main street, in front of the Newhall House, at 12 1-2 M., and the Procession will march to the ground at 1 P. M., precisely.

The Milwaukee Department will escort the Procession to the Fair Grounds.

The Foremen of the several companies will meet at the Newhall House at 11 A. M., Sept. 28, to draw lots for turn to play.

The whole will be under the direction and control of the undersigned commitee.

J. S. FILLMORE.
D. SCHULTZ,
6t J. C. GODORICH.

MEETING OF THE SCHOOL TEACHERS' ASSOCIATION.—It will be seen by a notice in our advertising columns, that the regular monthly meeting of the Teachers' Association, is to be held *to-morrow* evening at the room of the School Commissioners. Under a recently adopted regulation of the Board of School Commissioners, the Superintendent is instructed to report to the Board the names of all Teachers who absent themselves from the meetings of the Association. As the meeting to-morrow evening is the first in the present School year, it will, no doubt, be fully attended.

BAMFORD & BALDWIN, at the M. & M. Depot, keep all Eastern Dailies and Weeklies, Harper's Monthly, the Atlantic and Ballou's. They furnish the latest news ahead of mail, and can supply the SENTINEL to all who desire it.

FINE FRUIT.—The finest fruit we have tasted this season, is from the establishment of Mr. J. E. STEVENS. Try his peaches; they are the best in market.

DIED:

On the 29th ult., at St. Louis, Mr. WILLIAM H. KENNEDY, of Wausau, Wis.

The deceased in his life time had been honored with several offices of trust and honor: a member of the Constitutional Convention in 1846; afterwards County Judge of Marathon, when that Court exercised common law jurisdiction, which office he resigned for the practice of law, in which he continued with an increasing practice, until he declined business in that profession, with the avowed determination of retiring from the practice. At the time of his death he was at Saint Louis, on business. When the sad intelligence of his death, so unexpected by all who knew him, spread a gloom so deep, so silent and profound, that in the language of the poet, in describing the emotions of the living in burying their dead companions on board the charnel ship:

"Each blank assistant seemed to ask,
Whom fate should next demand."

Mr. Kennedy was a good man, kind in all his social relations, just in his public duties, loved by many, and esteemed by all.—*Wisconsin Pinery, Sept. 9.*

LOST.

ON THE 1ST DAY OF SEPTEMBER, a Pocket Book containing a Blank Check with Castleman & Taylor's signature to it, and fifty dollars in bank notes, was lost. We hereby caution all persons against taking any check signed Castleman & Taylor, as they will not be paid.

TELEGRAPH!

REPORTED BY THE N. Y. ASSOCIATED PRESS FOR THE DAILY SENTINEL.

The San Juan Affair.

NEW YORK, Sept. 10.—3 P. M.

The *Herald's* Washington correspondent says Gen. Harney sent troops to San Juan, to protect the white settlers from the savages, who were committing most atrocious murders. Gov. Douglass was needlessly excited. No collision with the British troops or subjects is apprehended by the government.—The President was Secretary of State when the boundary treaty was negotiated, and is perfectly familiar with all the circumstances attending it, and he and Rob't J. Walker were the only members of Polk's cabinet who opposed the 49th parallel boundary.—They adhered to 54 degrees 50 minutes as our just limit.

No doubt need be entertained that the San Juan difficulty will be amicably adjusted, as the President must be perfectly aware of our right and will ask for nothing more. The long connecton of Gov. Douglass with the Hudson Bay Company, doubtless causes him to view all the country in that vicinity as under the jurisdiction of the British Gov't, at least if not actually the property of the country, and his interests may have rendered him excitable in temper on this matter. The cabinet was in session to-day, on the whole subject, and the tenor of the instructions to Gen. Harney will be of the most temperate character.

New York, Sept. 10.

The Washington correspondent of the *Times* says much annoyance is felt here, both by the English Legation and the Secretary of State, by the recent news from San Juan.—The relations of the two Governments having lately become most cordial and friendly, it is hoped the good sense of both parties may prevent any serious mischief in the premises.

It is understood that Mr. Wyke, the new British Minister, takes out to Central America positive instructions to propose a treaty, which, if the Central Americans refuse to accept, they will be held responsible by all the world, for prolonging an unnatural state of things between themselves on the one hand, and England and America on the other. The only wish of the British Government—and a wish most anxiously felt for—is to come to a cordial understanding with the United States about Central American affairs.

Fire at St. Paul.

ST. PAUL, Sept. 9.

About 11 o'clock last night, while the Republicans were holding a mass meeting at the Theatre, a fire broke out in the rear underneath the stage. Hon. Schuyler Colfax, of Ind., was addressing the meeting at the time, having been preceded by the Hon. Galusha A. Grow, of Penn. The house was densely crowded, but all got out safely.—The fire was undoubtedly the work of an incendiary. The Theatre, with one or two small buildings, was entirely consumed.—Loss $2,000.

LATEST NEWS!

BY LAST NIGHT'S REPORT

Later from Salt Lake.

ST. LOUIS, Sept. 10.—9 P. M.

A special despatch to the Republican, says dates from Salt Lake City to the 19th, reached Atchison yesterday.

W. H. Hooper, Mormon, is elected delegate to Congress.

Lieutenant Gray, and a party of 42 dragoons, surprised a band of 150 Indians, concerned in the late massacre of emigrants on the California road, and killed 20 of them.

Gen. Johnson had sent reinforcements to Gray, in anticipation of another attack from the combined forces of the Indians.

The store of Miller, Russell & Co., at Camp Floyd, has been burned. Loss $15,000.

The steamer Wm. Garvin, sunk 12 miles below here on Tuesday evening.

The steamer Adriatic, recently sunk near Memphis, was valued $15,000. Her cargo of flour, tobacco and grain was almost entirely destroyed.

The British Corn Trade.

From the Mark Lane Express, August 22.

The past week commenced with rain, followed by a close humid atmosphere, but finishing fine and warm. Much corn has been carried; some in doubtful condition; but the continued scarcity of labor leaves a great deal of work in arrears, with more than ordinary risk and expense. The new wheat does not improve in quality, and some reserve is likely to be placed on the finer qualities till better prices are paid. Farmers, still busy in the fields, have sent but little to market, and the amount of business generally has been small. With few exceptions prices have gained in firmness, some no

Publishers Milwaukee Sentinel.

"One More Unfortunate."

Col. A. WELLINGTON HART occupies nearly a column of Saturday's *News* with his views about Wisconsin politics. They are scarcely worth the space they occupy, tho' good enough for *News* matter. The Colonel is displeased with the Republican Convention for re-nominating Gov. RANDALL, and with the *Sentinel* for very heartily supporting that nomination. We fear that the Colonel's griefs are past cure. The loss of that little piece of parchment, which elevated him to the high and mighty office of Commissioner for Wisconsin, was a blow from which "A. W. H." is not likely to recover.

WHICH TO BELIEVE?—The *News* avers that Gov. BARSTOW "brought up to the Convention a united delegation from his own county in favor of Col. ROBINSON." The *Patriot*, on the other hand, declares that Gov. BARSTOW informed Col. R. "that he would not assist in his nomination, but if nominated, he would of course support him." And the Washington County *Democrat* insists that Gov. BARSTOW threatened, if Col. R. was nominated, that "he and his friends would sport him," and that, in consequence of this threat, Col. R. was "dropped."—Which of these conflicting Democratic authorities are we to believe, or are all alike unreliable?

CIVIL SPOKEN.—The Appleton *Crescent*, a rabid partisan print, thus speaks of one of the worthiest citizens and most respectable candidates on the Republican ticket:

> Hans Heg, or Hen's Egg, is a Racine gentleman of high military renown, inasmuch as he holds a commission under the broad seal of the Badger State, the free gift of Gov. A. W. Randall, authorizing him to style himself adjutant general of the Wisconsin militia. He is reputed to be skillful in making charges on the bar of a saloon, and nominated for no other reason on earth save that the Democrats had nominate Mr. Fleck, a Norwegian by birth, to which country he traces his genealogy.

These ill-mannered flings at Major HEG and the contemptuous sneers at his Norwegian name and origin, are exceedingly characteristic of the Sham Democracy. We doubt, however, whether such arguments will win them many votes.

IS POVERTY A CRIME?—The Beloit *Journal*, in speaking of Mr FLECK, our candidate for State Prison Commissioner, sneeringly alludes to his poverty, as unfitting the dignity of a State officer. "He was a clerk in Coggswell's store a short time since," says the *Journal*, and all the Republican papers copy the heinous charge.—*Madison Patriot*.

It will be news to the "Republican papers" that it is a "heinous charge" against any man, to say that he is "a clerk" in a respectable store. But such is the *Patriot*'s "democratic" opinion. No Republican paper has indulged in the slightest allusion to Mr. FLECK's "poverty," or made that circumstance, if it exists, a reason for opposing him. The whole story is a paltry fabrication of the *Patriot*'s, and a fitting illustration of the means to which that journal seems willing to stoop, in the hope of making political capital.

A DELICATE COMPLIMENT.—HON. WM. DENNISON, Republican candidate for Governor of Ohio, was addressing a meeting at Portsmouth, Ohio, where many ladies were present. After speaking for some time he apologized for his prolixity, and turning to a clock in the farther end of the hall, remarked that the time had passed so fleetly that he was afraid he was taxing the patience of his audience. "Go on, go on," was heard from every part of the house, until the speaker proceeded. At this moment when everything was still, a pretty lady arose in the audience, took off a thick veil, and quietly walked to the clock and covered up the dial plate.

THE SENTINEL says: "No Republican seeks to meddle with the "peculiar institution" in those States where it is created and protected by local law." Of course not. They never meddle with it where it exists, but insist upon meddling with it where it does not exist. —*News*.

We think it will puzzle the *News* to explain how the Republicans can meddle with Slavery, or anything else, "where it does not exist." What does not exist, cannot, very well, be meddled with.

GOV. SEWARD.—A Kansas correspondent of the Boston *Traveller* states that of the twelve Republican papers in that territory, seven have committed themselves to SEWARD as their choice for President. Of the others three have spoken for CHASE, and the remaining two have not expressed themselves. The New York Senator seems to be a general favorite there.

THE DIFFERENCE.—Kansas is hopelessly lost to the democracy, and—the President denied the petition of the people to postpone the land sales.

Minnesota may *possibly* elect Democrats, and—the land sales have been postponed!

A LARGE ESTABLISHMENT.—Of the seventeen great London Breweries, the House of BRUMAN, HANBURY, BUXTON & Co. stood at the head of the list last year, having consumed in that time 1,120,000 bushels of malt and paid to the excise $800,000. 16,000 barrels are brewed nearly every day, and within the establishment are a hundred and thirty-five enormous reservoirs which altogether hold 3,500,000 gallons.

STEAMERS FOR LAKE SASKATCHEWAN.—Mr. Ross, an intelligent gentleman from Selkirk Settlement, states that a Canadian Company, now organized at Toronto, will, during the coming year, place a line of steamers on Lake Winnipeg and Saskatchewan, and extend the line of communication as near as possible to the Rocky Mountains.

A SIX CYLINDER PRESS FOR AUSTRALIA.—The Messrs. HOE of New York city, have manufactured and shipped one of their six cylinder presses for *The Sydney Herald* of Australia. They sent with the press one of their best workmen to put it up for the owners.

DELIBERATE with caution, and act with decision. Either yield with graciousness, or else oppose with firmness.

The Republicans of New York.

The Republicans of New York held their State Convention at Syracuse on Wednesday, and, with entire unanimity, made choice of the following strong ticket:

For Secretary of State—ELIAS W. LEAVENWORTH, of Onondaga.
For Comptroller—ROBERT DENNISTON, of Orange.
For Attorney-General—CHARLES G. MYERS, of St. Lawrence.
For State Engineer—ORVILLE W. STORY, of Allegany.
For Treasurer—PHILIP DORSHEIMER, of Erie.
For Canal Commissioner—DUDEN N. CHAPIN, of Albany.
For State Prison Inspector—DAVID P. FORSET, of Schenectady.
For Judge of the Court of Appeals—HENRY E. DAVIS, of New York.
For Clerk of the Court of Appeals—CHAS. HUGHES, of Washington.

This ticket is strong in all the elements that command popularity and deserve success, and it will be triumphantly sustained at the polls in November next. The following resolutions, reported by PARKE GODWIN, of the N. Y. *Evening Post*, from the Committee appointed for the purpose, were adopted by acclamation:

Resolved, That the Republican party of the State of New York, in convention assembled, reassert their unchangeable faith in the truth, justice, and practicability of the principles and purposes enunciated by the National Republican Convention held at Philadelphia, on the 17th of June, 1856.

Resolved, That freedom is universal and national and slavery exceptional and local, and that the general government of the United States, in the exercise of its powers, whether executive, legislative, or judicial, is bound to adhere in substance and in form to the generous and noble spirit of this immortal maxim.

Resolved, That the territories of the United States are the property of the people of the United States; that the Constitution has conferred upon Congress the power to make all needful rules and regulations respecting the said territories, and that it is the right and duty of Congress, as the guardian of their welfare, to preserve them free forever from all political and social nuisances, and particularly from the infamous and debasing institution of domestic slavery.

Resolved, That the countenance and support which has been given to the slave power by the political party which calls itself the Democratic Party, has encouraged that dangerous and aggressive oligarchy to put forth schemes for the enactment, by Congress, of a barbarous, inhuman and detestable traffic in African slaves, against which schemes the Republican Party hereby pledges itself to contend with earnest and unrelaxing energy.

Resolved, That the administration of the existing President, James Buchanan, has been marked throughout by a reckless profligacy of expenditure, which has raised the annual expenses of the Federal government to nearly $100,000,000 by extravagant schemes, which proposed an additional outlay of $30,000,000, to corrupt public sentiment on important questions of foreign policy, and by an open abandonment and disgraceful abandonment of the great principles of States' rights, and individual freedom, which are the distinctive and glorious characteristics of the American Republic.

Resolved, That we hold it to be the duty of the general government to set apart a portion of the public lands for the free use and occupation of the emigrant, in accordance with the provisions of the bill introduced into Congress at the last session by Mr. GROW, of Pennsylvania, which bill was supported by the Republican members of Congress generally and opposed as generally by the representatives of the slave power.

Resolved, That American citizens are all over the world, and as such, are entitled to the prompt, perpetual, efficient and fearless protection of the federal government; that, consequently, we abhor and reprobate the doctrine of the present federal administration, which abandons the adopted citizen who may be sojourning in foreign countries, either for purposes of business or pleasure, to the tender mercies of French drill sergeants and Austrian jailors, and that rejecting, as we do, all class or discriminating legislation as unequal and unjust, we adhere to the principle of the Philadelphia platform of 1856, which proclaims that the spirit of our institutions, as well as our fundamental constitution, guarantees liberty of conscience and equality of rights to all citizens.

Resolved, That the Republican party regards the canals of the State as a prolific source of wealth and power, and that it is in favor of retaining them as the property of the State and opposed to their sale and alienation.

Resolved, That the Republican party is in favor of the immediate completion of the enlargement of the canals, and that the measures of the late Report of the State Engineer and Surveyor exhibits the fact that all the canals of the State, including the enlargement of the Erie, Oswego and Cayuga, and Seneca canals can, in accordance with the original plans, be completed for a comparatively small sum, we deem it the duty of the legislature to provide means at the next session for the completion of the same.

Resolved, That we are in favor of the payment of the floating debt of the State, as provided for by the act passed April 18th, 1859, and that we urge upon the electors of the State to approve of the provisions of said act at the next election.

Resolved, That the name and history of the Republican party, the exigencies which called it into existence, and its equitable and just recognition of the claims and aspirations of its members, whatever may have been their political and partisan antecedents, all demonstrate that it is an organization of broad and liberal views, to which any sincere opponent of the federal administration may attach himself on terms of perfect equality, and that the Republican party will cordially welcome all who may be attracted to its ranks, without regard to former party divisions or differences.

The Female College at Fox Lake.

MR. EDITOR:—I noticed an article in a recent number of the *Sentinel*, in which allusion is made to the Female College at Fox Lake and its Superintendent. I, in common with many of my Baptist brethren, have been watching the progress of that institution the last two years with intense interest. The object in founding and sustaining such an institution, I apprehend, should not be to promote *local* interests merely, to build up a town or individuals in a town, but to disseminate useful knowledge, and a healthful, moral influence throughout our land. By thoroughly educating our daughters, giving them expanded ideas of Nature and its author, just views of life and its responsibilities, we guarantee to future generations such training as will insure the prosperity of the nation.

If a man is needed at the head of a Female College, which I very much question, he should possess peculiar qualifications. It is not enough that he can drive a good bargain even at the sacrifice of warm friends of the institution, and manage to keep money in the treasury, but he should possess dignity free from affection, learning without pretension, and honesty unmingled with hypocrisy. Through the influence of his example, and the spirit which he manifests, youth should be led to form high purposes, and take broad views of the object of life.

With no other desire than the best good of that institution, which we had fondly hoped would prove a pure fountain, sending forth only "waters for the healing of the nations," candor induces me to say that many prejudices are existing with regard to its financial policy. Our daughters entered the institution with their minds deeply imbued with these prejudices, and without having them in any degree lessened by time or circumstances, they learned to repose such implicit confidence in the wisdom and experience of its teachers, that they were willing to do violence to some of their feelings for the sake of the thorough instruction which they there enjoyed.

I have been particularly pleased with the straight-forward course pursued by the teachers in inculcating *religious* truth. Bearing in mind that human Learning is only the handmaid of Piety, they have never kept the latter in the back-ground. What policy may be adopted hereafter, we cannot predict, but for myself, I prefer to retain my daughters by my own hearthstone, and instill into their minds the pure principles of Christianity, to sending them where a compromise will be made for the sake of adaptation to the free-thinking spirit of the age. An Institution should take a high stand, and by unflinching perseverance gradually bring the masses up to its standard, but it should never lower its standard to meet the views of the masses. What would have been the character of the New England Institutions, which now justly hold so high a rank in this great Commonwealth, if our Puritan forefathers, in establishing them, had vascillated with every passing opinion? Is there not stamina enough in this *Western* country, also, to fearlessly adopt right principles, and cling to them through evil as well as good report? Until this is the case there will be no permanency in our institutions or our national character, but everything will be as fluctuating as in unstable France. PATER FAMILIAS.

THE DEMOCRACY ON THE TWO YEARS' AMENDMENT.—The Democracy in the late Convention waxed valiant in denouncing the Massachusetts amendment, requiring two years residence of foreigners after naturalization. Massachusetts happens to be a Republican State, so the Democracy could afford to denounce proscription in that State. But in respect to the most reliable Democratic State in the Union, South Carolina, which requires two years residence of foreign born citizens after naturalization, and a property qualification besides, to allow the right to vote, the Democratic Convention dared not offer a word of disapproval. Put this cowardly action in contrast with the decisive expression of the recent Republican State Convention:

Resolved, That the peculiar feature now contained in the Constitutions of Massachusetts and South Carolina, which require, before the right of suffrage can be exercised by a foreign-born citizen, a residence of two years after naturalization, meets our united condemnation.

We submit to the foreign-born citizens, which is the most manly and fair expression, the Republican Convention, which condemns both the Massachusetts and South Carolina proscriptive enactments; or the Democratic Convention, which only denounces Massachusetts, and cowardly refrains from saying a word about South Carolina, for fear of giving offence to Southern Democracy!—*Kenosha Telegraph*.

IN the conception of Mahomets paradise there is no distinction between a perfect woman and an angel.

Currency Reform.

MR. EDITOR:—I notice, with satisfaction, your publication of THOMPSON's article, wherein he shows that, mainly on account of a debased condition of the currency, there is an annual loss of more than *ten millions of dollars*, in the United States, being made up of discounts in converting the same into something that will pay debts. This is truly an enormous sum; but it is not too much. Only think of it, in this State! In the last two years, exchange in this city and State has averaged more than *two per cent*. In other words, for the payment of goods and property purchased out of the State, the currency, which has passed for money, has been worth but about ninety English cents on the dollar, on the average.

This ought not so to be; and I second your suggestion, that Wisconsin do as New York and Virginia have done—pass a law requiring all the Banks of the State to redeem, at some reasonable rate, at one or more central points.

Our Bankers as a whole, in this State, are sensible, and good, sharp business men, and I doubt not will cheerfully co-operate in carrying so wholesome a measure into effect. While the people who are really the only party chiefly concerned, will demand that our currency shall be made convertible, and that this enormous loss be saved, which in the end falls upon them. MERCHANT.

The Republican Nominations in Wisconsin.

From the Beloit (Rep.) Advertiser.

We are especially gratified at this wise action of our Republican friends in the Badger State, and have no doubt that the result of the election will prove that their choice has been judicious.

We are gratified to *see* such men placed as the standard-bearers of Republicanism. It shows a healthy state of feeling on the part of the people, a devotion to principle and a proper regard for integrity as a qualification for office. If there is one State which, more than any other, has suffered from the venality and corruption of men in high places of trust, that State is Wisconsin. The fame of the Forty Thieves of Wisconsin is almost national. The corruption, trickery, and unblushing rascality of certain Wisconsin officials has become so proverbial, that when we see such a downright, upright, honest man as Gov. Randall sustained and endorsed by the people, the fact calls for words of special commendation, and is the presage of a better state of things in our sister State.

Gov. Randall commenced the discharge of his duties as Gov. at the time when people had almost lost confidence in humanity, when great frauds had been perpetrated, in which the chief men of the State had participated; when very few men could be trusted, so all pervading was bribery and corruption; when the firmest integrity, the boldest courage and a strict impartiality, which would not discriminate between nominal friend and open foe in ferreting out rascality, were necessary qualifications for the Chief Magistrate of the State. It was, in fact, a critical time; but Gov. Randall was equal to his duties, and discharged them so nobly that he emphatically deserved what he has received, the nomination for re-election.

With regard to Mr. Harvey, as Secretary of State, and Mr. Hastings as Treasurer, they are men who have sufficient back-bone to stand straight up in the discharge of their official duties amidst a crooked generation, which are the kind of men that are wanted for office in Wisconsin, as elsewhere. We hope to see the people of that splendid State rally to the election of the whole Republican ticket in solid energy, and swell its majority to the utmost possible limit.

Racine College.

From the Racine Daily Journal.

We are happy to announce that a very important accession to our College has just been made, by the Union of St. John's Hall of Nashotah with this institution. A special meeting of both Boards of Trustees was held for this purpose, at the College, on Wednesday, the 7th inst., at which those Trustees of St. John's Hall who were not already connected with the College, were elected into the Board, together with other gentlemen who were known to be in favor of this union. The new Trustees thus elected, are the Rt. Rev. Bishop McCoskry, of Michigan; the Rev. Dr. Shelton, of Buffalo; the Rev. Dr. Whipple, of Chicago; Rev. Mr. Keene, of Milwaukee; Rev. Mr. DeKoven and Rev. Mr. Hodges, of Delafield; Rev. Mr. Locke and C. R. Larrabee, Esq., of Chicago.

The Rev. Dr. Park then resigned the office of President of the College, and was elected its Chancellor, still holding the Professorship of Natural Philosophy and Chemistry &c.—The Rev. James DeKoven, Rector of St. John's Hall, was elected Rector of Racine College, an office equivalent to the Presidency, to reside in the College and take the immediate charge of it. The Rev. J. S. B. Hodges was elected Vice Rector of the College, to act as one of the Professors, should he accept the appointment. The Rev. Joseph H. Nichols and the Rev. Homer Wheeler were continued in their respective professorships: the Rev. Henry C. Shaw was appointed Head Master of the Grammar School, and the Rev. Edward Seymour, Assistant Master; and A. M. Slingerland, Esq., of Summit, was appointed Curator, to perform the duties of Treasurer and Steward.

By this arrangement, the faculty of Racine College will be greatly strengthened; and some five and twenty students will at once be added from St. John's Hall, consisting of young men under training for the ministry, besides all the students otherwise expected. The funds of St. John's Hall will at once be applied to finish the second College building, which will then be used for the Grammar School; and it is expected that both buildings will be well filled with officers and students. Thus Racine College will be placed on a firm and high basis; and the money which has been so liberally expended upon it by our citizens, will, it is hoped, bring an ample return, henceforward, both pecuniary and honorary. We congratulate all the parties concerned in this arrangement; and augur the happiest results for the future.

TRIBUTE TO DR. PARK.—We publish with pleasure the following resolutions, presented by the Rev. Dr. CLARKSON, of Chicago, and unanimously adopted by the Board of Trustees of Racine College, in compliment to the Rev. Dr. PARK:

WHEREAS, the Rev. Dr. Park, the able and accomplished founder of Racine College, has resigned the presidency of this institution, in order to effect its union with St. John's Hall: therefore,

Resolved, That this Board hereby place on record their grateful appreciation of the arduous and almost gratuitous labors which he has given to the founding and establishment of Racine College.

Resolved, That we acknowledge with gratitude our indebtedness to the cultivated taste, the indomitable zeal, and indefatigable industry of our late President; and should the future of this institution be such as to verify our hopes, we shall always consider Racine College as a monument of the faith, perseverance, and toil of its first honored President.

Resolved, That the Rev. Dr. Park be, and is hereby declared to be, the first Chancellor of Racine College; an office that shall always, after being vacated the first time, be held only by the Bishop of the Diocese.

A LARGE FIRE—Loss $30,000—INSURANCE $19,000.—Yesterday morning about four o'clock, a fire broke out in the Pilot Knob Flouring Mill of Goodwin, Miller & Co., on the corner of Main and Ashley streets. The building belonged to Mr. Thomas West, and was valued at $12,000. Insurance $8,000, in city offices, of which the Union held a part. Insurance on machinery $8,500 in Commonwealth, Pennsylvania and Metropolitan of New York.

Messrs. Goodwin, Miller & Co., had in the mill some 1,800 bushels of wheat, a large portion of which was prepared for the stones by their new process of taking off the bran before grinding—the flour from which was attracting much attention from our city bakers and consumers. The mill contained three portable mills, which had the capacity of turning out one hundred and fifty barrels of flour per day. The mill has been running since March last, and the delay occasioned by this loss, at this time, is a serious annoyance.

Mr. Miller lost a most valuable library and some manuscripts, together with his household effects, which were stored in the mill, his wife being absent from the city. The foreman, Mr. J. H. Weaver, lost a chest of tools valued at $200.

The loss of the mill, and mill building is estimated at $25,000, which were insured as above.—*Missouri Democrat, Sept. 5.*

☞ HET HOLLANDSCH BITTER.—We have received another certificate out of Grand Rapids, Michigan, dated 10th June, 1853.

PETER DANE, a Hollander, desires us to publish in the Nieuwspade, that the Holland Bitters entirely cured him of Indigestion, Fever and Debility, with which he suffered all of the spring. PETER DANE is grateful to the proprietors of this great remedy, and takes this way of recommending it to his countrymen.

J. QUINTUS.

Ed. Sheboygan Nieuwsbode, Sheboygan, Wis.

CAUTION!—Beware of imposition See that the name of Benjamin Page, Jr. & Co., sole proprietors Pittsburgh, Pa., is on the label of every bottle.

BIRD CAGES AND WILLOW WARE.

BLAIR & PERSONS, AT THEIR NEW Store, No. 156 East Water Street, are just open the best assortment of Bird Cages and Willow Ware ever brought to this market, which they offer to the trade, or at retail, at the lowest prices. May 11th, 1859.

For Sale or Rent.

CITY AUCTION ROOM,
NO. 146 EAST WATER STREET.—I have 31 acres of land in high state of cultivation, enclosed with a wire fence, within ¾ mile of city limits, fronting 31 rods on Spring st. Road and 60 rods on Wisconsin Plankroad. On said land there is a good two story frame house with eight or ten rooms, good cellar, good cistern, with a never-failing spring. It will be sold at immense sacrifice, if sold within the next thirty days. CALEB WALL.

CITY AUCTION ROOM.
I HAVE FOURTEEN ACRES OF LAND high and beautiful, in the First Ward of city of Milwaukee, which I will sell at immense sacrifice, for cash. The purchaser, whoever he may be, will have a chance of making twenty thousand dollars in five years out of it.
sep3 CALEB WALL, City Auctioneer.

TO RENT.
A DESIRABLE RESIDENCE ON CASS, between Biddle and Martin streets, with a good garden and all the required conveniences for a family. Terms cheap to a good tenant. There is also a good barn on the premises. Enquire at H. Paddington & Co.'s Planing Mill Office, West Water street.

A CARD TO THE "LADIES."

Dr. Duponco's Golden Periodical Pills

FOR FEMALES.

THE COMBINATION OF INGREDIENTS in Dr. Duponco's Golden Pills are perfectly harmless. They have been used in the private practice of old Dr. Duponco for over thirty years, and thousands of ladies can testify to their great and marvelous success in almost every case, in correcting irregularities, relieving painful and distressing menstruation, particularly at the change of life. From five to ten pills will cure that common yet dreadful complaints, the Whites. Nearly every lady in the land suffers from that complaint. The above pills has permanently cured thousands, and will cure you if you use them. They cannot harm you, on the contrary, they remove all obstructions, restore nature to its proper channel, and invigorate the whole system. Ladies whose health will not permit an increase of family, will find these pills a successful preventative. Pregnant Females, or those supposing themselves so, are cautioned against using these pills while pregnant, as the proprietor assumes no responsibility after the above admonition although their mildness would prevent any mischief to the health—otherwise, these pills are recommended. Full and explicit directions accompany each box. Price $1,50 per box.

H. BOSWORTH & SONS,
Wholesale Agents for Milwaukee.

They will supply the trade at Proprietor's prices, and furnish circulars, and show cards. Sold also by H. Fess, jr., 195 East Water St., J. M. Alcott 202, J. H. Tesch, 9 Spring St., and C. H. Gardiner & Co., 19 Spring St. "Ladies" by enclosing $1,00 to H. Bosworth & Sons, or either of the above Agents, can have the above Golden Pills sent to any part of the country (confidentially) by mail.

N. B.—Be particular in asking for Dr. Duponco's Golden Pills, and remember, they are not a secret nostrum, every agent is given the receipt composing the Pills, and they will tell you they are the best and safest Pill for Females, ever introduced since the science of Medicine dawned upon the world.

MOTHERS! MOTHERS!

DON'T FAIL TO PROCURE MRS Winslow's Soothing Syrup for children teething. It has no equal on earth. It greatly facilitates the process of teething, by softening the gums, reducing all inflamation—will allay all pain, and is sure to regulate the bowels. Depend upon it, mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases.

This valuable preparation is the prescription of one of the most experienced and skillful Female Physicians in New England, and has been used with never failing success in millions of cases.

We believe it is the best and surest remedy in the world, in all cases of Dysentery and Diarrhœa in children, whether it arise from teething or from any other cause.

Life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of bottles are sold every year in the United States. It is an old and well tried remedy.

PRICE ONLY 25 CENTS A BOTTLE.

☞ None genuine unless the fac simile of CURTIS & Perkins, New York, is on the outside wrapper.

Sold by Druggists throughout the world. Office No. 13 Cedar street New York.

Sold in Milwaukee by John Rice.

R. R. R.

"TIGHTNESS OF THE CHEST," COMMONLY so-called, is instantly relieved by bathing the chest with R. R. Relief.

BAD COLD—As soon as you find you have a Cough or Sore Throat, or experience any difficulty in breathing, check the symptoms immediately. If allowed to run on, they will entail more serious difficulties upon you. A dose of Radway's Renovating Resolvent, followed with three or four Regulators, will immediately check and cure a recent cold; and the continued use of the R. R. R. Remedies will speedily cure the most obstinate Coughs. In many cases of confirmed Consumption it has proved highly efficacious. It acts powerfully upon the lungs, and is a most excellent expectorant. In five minutes it will loosen the phlegm, and give relief to the distressed. In many cases of Asthma, where the patients were almost suffocated, it has in five minutes given entire relief. In all obstinate cases, each of the R. R. Remedies must be used.

R R R is sold by C. Harrington, Bosworth & Sons & L. Lake, and J. H. Tesch, Milwaukee, and by drug dists everywhere. sep2 dawiw

Portland Harbor and the Great Eastern.

A correspondent of the Pittsburgh *Gazette* gives the following description of Portland harbor:

PORTLAND, Aug. 24, 1859.

MESSRS EDITORS:—I arrived in this beautiful city a few days ago, and have thought that at this time a line from here might not be uninteresting. I say "at this time," because expectation is on tip-toe in anticipation of the promised coming of the great Leviathan to this city. As you probably know, arrangements were made here a year since for the accommodation of the mighty steamship which was promised at that time. Portland enjoys the reputation, and I believe deserves it, of having the best harbor, all things considered, in the Union. From the entrance to it, up to the wharves of the city, the distance is not more than three and a half miles.

A deep, narrow passage, between an island and headland of the main coast, which is crowded with lighthouses, fairly invite a ship to enter. Through this passage the favoring tide would bring any ship into the harbor without danger of touching. At the distance of a mile above the entrance, an immense granite break-water, a mile and a half in length, extends into the harbor from the southern side, which entirely breaks off the ocean swell which a south-east wind used to roll in from that direction. On all other sides the harbor is land-locked. A handsome fort stands on either shore, at the narrowest part of the entrance, and a new fort is erecting which commands the approach from the east.

When the great ship shall have passed the break-water, a few turns of her mighty wheels will bring her to the wharves built for her accommodation. There are not less than 45 feet of water at low tide, beside the wharves, of which there are three. They are built on piles and covered with solid plank. Storehouses are built on them to accommodate freight.

Within fifteen rods of where the Leviathan will land is the track of the Grand Trunk Railway, connecting this city with Montreal. With switches and the necessary turn-outs, the cars can be loaded from the ship without drayage. The effect of the contemplated visit is said to be manifest in the city already, in the sort of semi-anglicised tone of the people, and the burthen of all the talk is of the *Great Eastern*. It is thought that an excursion will be arranged from our shores to those of the Old World, and that probably a thousand people may be found who will take the first trip in the steamer to England, where they will be able to spend a portion of the month of October, the pleasantest in the year. From the description of her, which everybody has read, I suppose one thousand people would be almost lost in her. She is over six hundred feet in length, on deck, and would accommodate at least five thousand people at one time. Her magnificence is equal to her magnitude, for as I saw it stated in the London *Times*, the mirrors, gilding, carpeting and silk curtains for her saloon alone, cost £3,000.

The Aurora Borealis and the Telegraph.

During the Auroral display of Thursday night in Boston, some curious phenomena were witnessed in connexion with the telegraph wires. The following conversation, says the Boston *Traveler*, between the Boston and Portland operators on the American Telegraph line will give an idea of the effect of the Aurora Borealis on the working of telegraph wires:

Boston operator to Portland operator.—"Please cut your battery entirely off from the line for fifteen minutes."

Portland operator.—"Will do so. It is now disconnected."

Boston.—"Mine is disconnected, and we are now working with the Auroral current. How do you receive my writing?"

Portland.—"Better than with our batteries on. Current comes and goes gradually."

Boston.—"My current is very strong at times, and we can word better without batteries as the Aurora seems to neutralize and augment our batteries alternately, making current too strong at times for our relay magnets. Suppose we work without batteries while we are affected by this trouble."

Portland.—"Very well. Shall I go ahead with business?"

Boston.—Yes, go ahead."

The wire was then worked for about two hours without the usual batteries on the auroral current, working better than with the batteries connected. The current varied, increasing and decreasing alternately, but, by graduating the adjustment to the current, a sufficiently steady effect was obtained to work the line very well.

THE WHEAT PLANT.—The following notice of a forthcoming work, we clip from the Cincinnati *Commercial*:

Mr. Klippart, corresponding secretary of the Ohio State Board of Agriculture, has in press his elaborate work on the "Wheat Plant." No work in the language will be found to equal it in the complete thorough discussion of the great cereal in its entire history, from the condition of an insignificant grass to an indispensible article of food for the human race. His statistics, comprised of culture, produce and commerce in this grain, are compiled from a great variety of sources and embody every feature of its history. The Book ought to be considered indispensible to every farmer, and will be an addition to the library of every intelligent merchant as well as devotee to science. It will be ready for delivery next week. Our notice of it here has been induced by a reference to some of its pages, from which we take a statement of the annual average amount of wheat produced in Europe during a series of years:

	Bushels.
Austrian Empire	97,133,565
British	145,800,000
France	101,422,248
Russia exported	18,925,736
Belgium	18,849,100
Denmark	2,092,718
Holland	3,597,888
Portugal	5,499,259
Sardinia	10,076,059
Spain	46,914,800
Sweden and Norway	1,100,784
Turkey	4,625,720
Two Sicilies	54,000,000
And in Canada	60,000,181

The yield in the United States, as shown by the census of 1840, was 84,513,270 bushels: in 1850, 100,535,811 bushels. For the current year the estimate of production in the United States is 200,000,000 bushels.

FIFTEEN SHIPS TO THE MILE.—Since the completion of the *Great Eastern*, enquiries have been rife as to the dimensions of all the large ships in the world. We append a list of fifteen monsters of the deep that, without bowsprit, would cover a space one mile in length, were they placed in line:

Vessels.	Length.	Tonnage.
Great Eastern	680	19,500
Adriatic	350	about 5,000
Niagara	345	4,580
Himalaya	340	5,000
Duke of Wellington	210	2,400
General Admiral	325	6,000
Orlando	347	5,727
Persia	336	3,300
Atrato	336	3,132
Royal Charter	306	2,720
Great Republic	292	4,555
Pennsylvania	300	3,241
Arabia	225	2,402
Great Britain	234	3,500
Asia	250	2,226
Total	5,151	68,423

BEST WHEEL IN THE STATE.

EAGLE STEAM FOUNDRY,

WEST WATER STREET, MILWAUKEE,

THE OLDEST ESTABLISHMENT in the STATE

TURTON & SERCOMB,

MANUFACTURERS OF FLOUR, SAW and other Mill Gearing, together with Castings of all descriptions: Steam Engines of the latest improvements: Brass and Composition work.

Also manufacturers of the celebrated Hartland & Tuttle Water Wheel. It gives less water, in proportion to the power given, than any other wheel manufactured. It is adapted to either high or low heads of water, runs perfectly steady, and is not affected by ice or back-water. It has given general satisfaction to all who have used it, and that, together with its durability, gives it an entire superiority over all other wheels. Descriptive circulars, with reference, forwarded on application.

MILL STONES, BOLTING CLOTHS, SCREEN WIRE,

And Mill Furnishings, of all descriptions, at the shortest notice.

Also, Steam and Water Cocks, Steam Gauges and Whistles, Oil Pumps and Cups, Lignum Vitæ of all sizes.

THOMAR TURTON. JOHN SERCOMB.

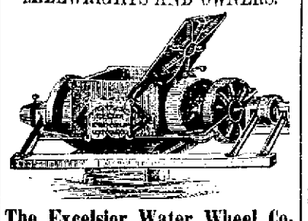
IMPORTANT NOTICE

—TO—

MILLWRIGHTS AND OWNERS.



The Excelsior Water Wheel Co.

ARE MANUFACTURING A NEW KIND of Water Wheel, patented 11th May, and 15th December, 1858, by J. H. Fairchild, of Vermont. It involves an entirely new principle of obtaining power, and differs entirely from all wheels which we obtain a greater maximum power than is afforded by any other wheel now in use. Some of the advantages of this wheel are—

1st. We obtain the ENTIRE WEIGHT of the water, and have the advantage of the full head and fall, from the surface to center.

2d. It surpasses all other wheels in velocity and power.

3d. It is perfectly under the control of the workmen, either when used to drive a large or small amount of machinery, as the strength of the wheel is not diminished by reducing the quantity of water, but depends upon the weight of the column of water across the wheel, which always remains about the same.

4th. It occupies less space than any other wheel—is placed inside the flume, near the SURFACE of the water, and is never affected by frost.

5th. The wheel is very durable, being made of iron, and can be put in in any place and attached to Saw Mills, Grist Mills, and machinery of all kinds, with less expense than any other wheel. The velocity of the wheel is such that the expense of wearing up is avoided for nearly all purposes.

Together with the advantages above stated, we are ready to warrant this Wheel to possess a power equal to the following figures, for each foot fall of water

Inch wheel			
10½	"	52,130	horse-power.
12	"	78,100	"
13¾	"	99,100	"
15	"	111,100	"
16¾	"	85,	"
17	"	87,100	"
18	"	2,25,100	"
19	"	2,65,100	"
22	"	2,96,100	"
23	"	3,75,100	"
24	"	4,20,100	"
28	"	5,35,100	"
30	"	6,81,100	"

Wheels of the above sizes make from 400 to 1000 revolutions per minute. Wheel, with gearing, with gate, pully and shaft, so that the purchaser has only to place it in the flume, which can be done with less expense than any other wheel.

The Company have competent workmen, who will put them in any place in Workmanlike manner, at reasonable rates. The Excelsior can be afforded at a less price than any other wheels now in use.

W. B. STURGES, Sec'y, Troy, N. Y.

CERTIFICATES.

MIDDLETOWN, CT., Dec. 1, 1858.

DEAR SIR—In answer to your favor asking my opinion of the Fairchild Patent Water Wheel that you put in my Machine Shop, I take pleasure in stating that it has exceeded my expectation. I took out a Brown Wheel 10 feet in diameter, by 9 feet Buckets, and replaced in with one of Fairchild's Patent" 15 inch Wheels, and it gives more power, with no greater amount of water, and the motion is as steady as that of a turbine. It has also the advantage of being very cheap and durable.

It operates under a 9 feet head and fall, and carries with equal regularity and steadiness a greater price amount of machinery, "such as is necessary for the manufacturing of fire arms," whereas an increase of machinery upon old Wheels would materially lessen the speed.

It is without doubt the best Wheel I have ever used, and my experience in Water Wheels extends over a period of 25 years. Any one interested in Water Wheels will be convinced of its superiority, however skeptical if he will take the trouble of calling at my factory and see its performance.

I am, yours, respectfully, By
EDWARD SAVAGE.

Mr. Savage writes me again under date of Jan. 6th 1859. The Wheel continues to perform entirely well, and I am more and more pleased with it. It has not caused a moment's delay for repairs since it was put in.

SHELDON, Franklin Co., Va., June 22, 1858.

DEAR SIR—I have one of Mr. Fairchild's wheels in operation at my Machine Shop, which I can recommend to the public with perfect confidence, as possessing all the advantages which are claimed for them. The wheel which I am using is twelve inches in diameter. It gives more power, and runs more steadily than the two best Bevel Wheels I have ever used before used, requiring less water under the same head and fall.

H. CARLISLE.

Many other testimonials from heavy eastern manufactories may be seen at my office, where the public are invited to call and examine this wheel, and where they will at all times be on hand to supply the demand. An 18 INCH wheel is now running the Planing Mill and other Machinery necessary for the manufacture of Sashes and Blinds at the factory of M. Y. King, Esq., (State Dam) Joliet, Ill.; where any and all are invited to call and examine it under practical use. Price a medium of 700 horse power per minute. For further particulars please address

THE SENTINEL.

COMMERCIAL.

MONDAY, September 12, 1859.

Money Matters.

The increased receipts and shipments of produce last week created a more active demand for money, and gave us a better supply of exchange. On Tuesday the price of exchange on New York was reduced to ¼ premium, and the tendency is towards a still lower point. The banks have fully met the currency wants of the business community, not allowing any good paper to go begging amongst the brokers. Discounts, as usual, 10 ₰ cent. Street rates 1 to 2 ₰ cent a month, according to the character of securities. Gold quoted nominally at 1¼ premium No enquiry for land warrants.

The Chicago *Press & Tribune* of Saturday says:

Eastern exchange continues scarce, and under the urgency of the demand outsiders were charged by some banks, 1¼@1½c. Regular depositors, however, were generally accommodated at ½ ₰ cent. Currency is in good demand, with a fair supply. Gold scarce and in active demand at 1 ₰ cent premium.

Breadstuffs, &c.

The following table shows the movements of flour and grain for the week ending Saturday, and since September 1st, as compared with the corresponding periods in 1858:

Receipts.

	Flour, bbls.	Wheat, bus.	Oats, bus.	Corn, bus.	Barley, bus.	Rye, bus.

Receipts by Lake for the week ending Saturday, as reported at the Custom House, were as follows: 1,000 tons coal, 750 tons coal, 850 tons iron, 80 bars iron, 200 brls iron, 1,241 bbls apples, 880 bus do, 30 bbls cement, 75 bbls flour, 100 bbls highwines, 22 bbls hardware, 5 hhd-bbls liquor, 2 pkgs liquor, 22 bbls molasses, 450 bbls salt, 15 bbls sugar, 21 hhds do, 56 bbls tobacco, 10 pkgs do, 1 pkg segars, 2,775 pkgs sundries, 42 kegs do, 320 kegs nails, 190 kegs white lead, 18 pkgs lead, 386,000 ft lumber, 154,000 shingles, 10,000 lath, 222 cedar posts, 7 cords shingle bolts, 100 cords wood, 65 cords bark, 130 bus peaches, 1,168 baskets do, 10 bus pears, 22 tres lard, 3 tres rice, 12 bxs medicine, 14 bxs furniture, 1 bx h h goods, 17 bxs glass, 1 bx hardware, 190 bxs axes, 3 cases matches, 49 cases shoes, 30 cheests tea, 52 bags coffee, 15 rolls leather, 1 pipe gin, 21 rolls pipe, 1 wagon, 4 horses.

The shipments for the same period were: 5,669 bbls flour, 162,696 bus wheat, 6,290 bus oats, 10 bus seed, 15 tons feed, 25 tons sundries, 2 bbls apples, 1 bbl ale, 293 hlf bbls beer, 196 qr do, 85 bbls beef, 100 bbls bone-black, 1,500 empty flour bbls, 11 bbls eggs, 1 bbl highwines, 85 bbls lime, 5 bbls lard, 20 bbls potash, 1 bbl pork, 4 bbls sauce, 2 bbls tallow, 58 bbls tobacco, 37 bbls whiskey, 25 bxs h h goods, 8 bxs boots, 110,000 ft lumber, 20 000 ft timber, 36 casks ashes, 288 pkgs sundries, 427 hides, 1,725 staves, 125 kegs butter, 57 bales rags, 21 do wool, 4 rolls leather, 85 tons scrap iron, 620 R R iron bars, 4 wagons, 4,000 brick.

From the tables which we publish above, a very clear conception may be obtained of the extent of our produce business last week. The comparisons with last season, which for the past seven months have continued to exhibit a constantly increasing balance *against* 1859, it will be observed with satisfaction, show the balance since the first of the present month on the *other side*, and there is every indication that the difference will increase, as the season advances. Our exports of wheat from September 1st to the close of navigation, will, we think, be nearly as much in excess of the shipments for the corresponding period last year, as our exports from the opening of navigation to September 1st were *deficient* of the exports for the same period in 1858. The market for grain was quite active during the week, closing firm and steady.

Receipts and shipments of flour and grain for the 24 hours ending Saturday noon are shown by the following table:

Receipts.

Friday's advance on wheat was firmly sustained on Saturday, the market closing with an upward tendency. Sales of No. 1 were made at 73, 73½ and 74c, of extra club at 77c and 78c, and of No. 2 at 72c. Several uninspected lots, a little better than No. 1 sold at 75 and 76c. The flour market was quite active, and sales exceeded 1,500 bbls of spring extra, embracing the wide range in prices of $3,50 to 4,25 for common country to prime city brands. The high prices paid for oats during the past few days, begin to draw out some old lots that were stowed away, and the supply being better, on Saturday the market declined a cent or two. Receipts of other articles were light, and prices unchanged.

CHICAGO, SEPT. 9.—Receipts: 9,385 bbls flour, 92,725 bus wheat, 10,077 bus corn, 4,715 bus oats, 670 bus barley.

The continued firmness in Eastern markets caused an increased demand for wheat to-day, and notwithstanding a further improvement of 1@2c on the rates of freights, the market became busy at and advanced ½@1c on Spring grades. Winter wheat was dull and neglected, with a slight decline and very limited transactions. Upwards of 20,000 bushels of all grades were sold at 83c for No. 1 red in store, 78c for rejected, 85c for rejected Winter, 74¼@75c for No. 2 Spring, 72½@73c for No. 2 Spring, and 63c for rejected Spring —the market closing firm. Flour was also in good request, and Spring is 5@10c higher, and sold at 5@6@10c, with sales of about 1400 bbls at $3.25@4.12½ for common to choice brands. Winter Wheat flour, however, continues dull and entirely nominal. Corn was firmer but the demand was very light, and the transactions necessarily limited. About 20,000 bushels were sold at 63c for canal afloat; 62 for No 1 in store; and 59@59½c for No 2 in store. Oats were firmer for a good inquiry, and 1,000 bushels sold at 30c, and 30 bushels changed hands at 25c for No 1 in store, and 26½c for Canal afloat. Rye, 56½c in store for No 1 and 53c for No 2.

There was quite a scarcity of vessels to-day, and rates advanced 1@2c—vessels being chartered at the following rates: Wheat to Kingston by vessel, 7½c; to Buffalo, by vessel, 5@6c, and by propeller, 6½ to 7½c.

NEW WISCONSIN WHEAT AT OSWEGO.—The *Times* of the 7th has the following:

We saw a sample of new extra Milwaukee club wheat, this afternoon, received by S. H. Lathrop, which we think is the most beautiful ever exhibited in this market. It compares favorably with red winter, and if Wisconsin can turn out much of this kind of wheat, we shall not be dependant on Indiana, Michigan and Ohio for our choicest grades.

The above was a choice lot of club, shipped by J. D. Cowen, of this city.

Weekly Review of Milwaukee Markets.

Monday Morning, September 12, 1859.

FREIGHTS—The increased demand for vessels consequent upon the commencement of the fall shipping, which promises to be quite large, has advanced freights to a higher figure than they have before reached this year. The closing rates are 6c on wheat, and 25c on flour to Buffalo. The following vessels chartered here loaded with wheat during the week: Schr, H. L. Lansing, to Buffalo, at 4c; schr. Barbarian, to Kingston, at 6¾c; schr. Nightingale, to Buffalo, at 3¾c; schr. Republic, to Buffalo, at 4c; schr. Dane, to Oswego, on private terms, schr. Lewis Lullington, to Buffalo, at 6c.

FLOUR—Receipts 4,086 bbls, against 3,086 for the previous week; and shipments 5,669 bbls, against 422. We are enabled to note a rather more active market for last week than we have had since June, with pretty steady prices at the decline reported in our last review. We give the transactions reported in the order of their occurrence. Tuesday: 100 bbls country spring extra at $3,62½c, f. o. b.; 50 bbls do, in sacks, at $3,75; 50 bbls w. w., in sacks at $4,50. Wednesday: 50 bbls country extra at $3,75; 200 bbls "Eagle" do at $4; 50 bbls w. w. in sacks at $4,75, f. o. b. Thursday: 60 bbls country spring extra at $3,50; 104 bbls do at $3,75; 54 bbls do at $3,80—all f. o. b., and 50 bbls superfine at $3. Friday: 150 bbls country spring extra at $3,50@3,62½; 170 bbls do at $3,75; 150 bbls "Falcon" do at $4,12½; 500 bbls "Stone Mills" (city) at $4,25—all f. o. b. Saturday sales were as follows: 103 bbls "White Lilly" spring extra at $3,50; 225 bbls mixed brands do at $3,62½; 75 bbls "Fulton" do at $3,75; 100 bbls "Portage City" do at $3,90; 33 bbls "Falcon" do at $4,00; 100 bbls "Milwaukee River" and 100 bbls "Constitution" at same price; 300 bbls "Mazomanie" at $4,12½; and 500 bbls "Stone Mills" (city) at $4,25—all free on board.

WHEAT—Receipts 209,911 bushels, against 137,342 for the previous week; and shipments 162,696 bus, against 119,490. As may be inferred from these figures, last week was much the most active one in the wheat market that we have had since the opening of the fall trade. Prices were very triflingly affected by the fluctuations at Buffalo and New York, and with the exception of being a little firmer and barely a shade higher, the market remains about as it was a week ago. We note the following sales, but they do not embrace the entire transactions of the week: Monday: 480 bus No. 1 at 73c; 760 bus do at 73c; 900 bus do at 73½; 3,500 bus do in lots on track at 74c; 950 bus, a little better than the standard of No 1 at 75c; 1,550 bus do in lots at 75c; 950 bus extra club at 77c; 2,300 bus do at 75c. Tuesday: 609 bus No. 1 spring at 72c; 275 bus do at 73c; 700 bus do at 73c; 2,100 bus do at 73c; 1,950 bus do at 74c; 350 bus, by sample, at 74c; 1,000 bus do at 75c—all in store or on track; 1,400 bus extra club at 76c, 350 bus do at 77c; 550 bus No. 2 at 70c; 1,700 bus do on the track at 71. Thursday: 2,100 bus No. 1 spring at 72½c; 6,000 do in small lots at 73c; 700 bus do, by sample, at 74c; 400 bus do at 74c; 650 bus do at 73c—all on the track; 2,450 bus extra club delivered at 76c; 900 bus do at 77c; 2,450 bus do at 75c; 140 bus white winter at 90c. Friday: 2,800 bus No. 1 in lots at 63c; 1,000 bus do at 63½c; 1,000 bus do at 74c, including a couple of car-loads of Fife,—all on the track and in store; 880 bus, by sample, at 75c; 787 do at 76c; 75 do at 77c; 1,550 bus extra club delivered at 75c; 300 bus No. 2 at 72c; 200 bus poor w. w. at 80c. Saturday: 2,000 bus No. 1 at 72c; 2,500 bus do at 73½c; 1,100 bus do 74c, 2,000 bus by sample at 75c, all on track and in store; 700 bus do at 76c; 300 bus do at 77c; 500 bus extra club at 77c; 1,000 bus do at 78c delivered; 500 bus on track at 72c.

OATS—Receipts 1,455 bus, against 1,416 for previous week. The supply was not sufficient to meet the demand for home use, and prices advanced to 30c, retail dealers taking all that were offered. Saturday, there was a better supply on the market, and some sales were made to be delivered at 28c.

CORN—Receipts 984 bus, against 1,403 for the previous week. Prices firm, shelled bringing 63@64c.

BARLEY—Receipts 2,073 bus, against 1,553 for the previous week. We note an increased demand, buyers offering 55@55c for the best qualities.

RYE—Receipts 1,748 bus, against 582 for the previous week. All that was offered sold readily at 55c.

POTATOES—Receipts very trifling and prices steady, as quoted last week, the range being 40 to 45c for good to prime qualities.

EGGS—Were a little scarcer, bringing 5c by the bbl.

BUTTER—Receipts by railroad 5,330 lbs, against 9,583. We note a slight improvement in prices, firkin selling at the close of the week at 12½@14c, and fresh family butter at 14@15c.

HOGS—Receipts 29,507 lbs, against 19,582. Prices a shade higher.

SENECA—Highwines, firmer, quoted on Saturday at 25c; whiskey, 19@20c; alcohol, 54c; burning fluid, 55c.

SALT—Coarse Solar $1,55; ground solar, $1,95; dairy $2,25; fine $1,25 ₰ bbl.

LUMBER—Receipts of the week, as compared with the previous one were as follows:

	Last Week.	Week previous.
Lumber, ft	556,000	1,207,000
Shingles	151,000	200,000
Lath ..	10,000	6?5,000
Timber, ft		28,000

There was some irregularity in prices at the yards, but as our quotations represent the rates at which the majority were selling we do not change them. The following are the only cargo sales we heard of:

Cargo of schr. North Star, from Green Bay, mixed, at $7.

Cargo of brig St. Louis, from Manistee, assorted, at $6,50.

Cargo of schr, Rose Dousman, from White Lake, on p. t.

Cargo of schr. D. O. Dickinson, from Oconto, assorted, at $6,50.

Cargo of schr. Souvenir, from Manistee, assorted, at $6,50.

Cargo of schr. Wm Aldrich, from Two Rivers, assorted, at $6.

FRUITS—Green apples are in great abundance, and selling at $2,75@3,75 by the bbl Peaches are also arriving in large quantities, and selling at prices ranging from $1 to $2 ₰ basket.

PROVISIONS—Remain steady as quoted last week. See prices current.

LIVE STOCK—The market was pretty well supplied. Prices of cattle ranged from $2@2,50, live weight, and of hogs from $5 to $5,50.

GROCERIES—The trade begins to look up, and prices are firm, but unchanged.

NEW YORK MARKET.

[By Telegraph.]

NEW YORK, Sept. 10—8 P. M.

FLOUR—Firm, and tending upward; sales 8,500 bbls at 4,20@4,40 for superfine state; 4,60@5,00 for extra do; 4,15@4,40 for superfine western; 4,60@4,80 for common to good extra western; 5,00@5,10 for old, and 5,15@5,30 for fresh ground shipping brands extra round hoop Ohio; closing firm. Brig St Louis, Hanson, Oconto, 4 bbls pork

Brig D. Ferguson, Hackett, Buffalo, 18,000 bus wheat

Schooner Hiroudelle, Jones, St Joseph

Schooner Grey Eagle, Clarke, Buffalo, 10,500 bus wheat

MARINE INTELLIGENCE.

The Green Bay *Advocate* of the 5th instant, contains the following:

The Ocean Ship now building at Fort Howard, will be launched this week, probably on Saturday. She is a larger and a finer vessel than the one sent from here last year, and will be in every way creditable to Green Bay.

The little sloop at Sorensen's yard over the river is about completed and will probably be launched to-day or to-morrow. We believe her to be as fine a specimen of yacht building as there is on the lakes. She is to be called the *Merry Heart*, owned by Mr. Lovell, Jr., as originally intended—in compliment to the daughter of Judge Howe, who gives her a fine suit of colors.

GREAT BARGAINS!

MAY BE EXPECTED, AT

187 East Water Street,

AS THAT

Immense Stock of Dry Goods!!

MUST BE CLOSED OUT!

Without Respect to Cost!!

BY THE ASSIGNEE.

ap18\15?d4f JOSEPH CARY, Assignee.

WILLOW WARE & BIRD CAGES.

MILWAUKEE COUNTY COURT—IN PROBATE—State of Wisconsin, Milwaukee County ss.—In the matter of the estate of John Sabel, deceased.

On this 18th day of August, A. D. 1859, upon reading and filing the petition of Francis Holzinger representing that John Sabel of the county of Milwaukee, died intestate, on about the 27th day of August, 1858, and praying that he be appointed Administrator on the estate of said deceased.

It is ordered, that said application be heard before me, at the Probate Office, in the City of Milwaukee, on the 13th day of September, A. D. 1859, at 10 o'clock A. M.

And it is further ordered, that notice of said application and hearing be given by publishing a copy of this order for three successive weeks, once in each week, in the SENTINEL, a newspaper printed in said City, prior to said hearing. By the Court.

ALBERT SMITH, County Judge.
